## MURPHY LIBRARY RACKS

Library shelving is a cost effective way to keep books/Journals Documents and files systematically and safely. These are ideal for individual users, corporate, public libraries, educational Institution, schools, colleges, universities, clubs etc. The unique design and construction of **MURPHY** Book Shelves facilitate systematic storage and easy retrieval of books. It can also be used to store computer disks. **MURPHY** book stacks are carefully constructed to utilize the minimum of space and books stored can be clearly seen and easily accessible.

It comes in two types of sections (1) Basic Section and Add-on sections and for a continuous block, one basic section is essential while add-on sections can be added to have a block of desired length, the stacks can be single faced or double faced, that are operable from one side only or from both sides.

# MURPHY GARMENTS

## MURPHY PALLET RACKS

**MURPHY** Pallet Racking system is designed to meet your requirement for a modern economical and rational warehouse. Pallets are placed on beams designed for safety and reliability for storing and retrieval operations by Forklift trucks. **MURPHY** Heavy Duty Pallet Racking System is essential simple in concept.

Pallet racking system is most simple and widely used pallet storage format, with all Pallets directly accessible. It comes with wide range of accessories and components tailor-made to suit different pallet sizes and your precise needs. All components involved in the manufacture are finished to

perfection, phosphated and stove enamelled to a high quality and range of colours, supported by professionals and service backup.

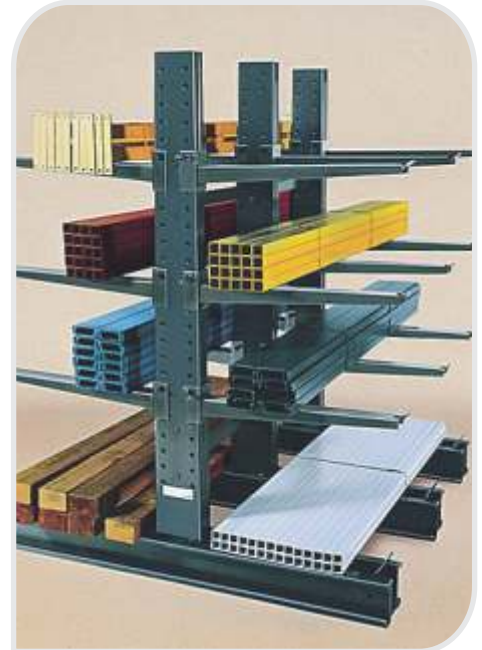

## MURPHY PALLET RACKS

## MURPHY CANTILEVER RACKS

**MURPHY** Cantilever Racking is formed using heavy duty structural uprights and heavy duty arms. It is normally used for storage of long loads. Cantilever Racks are great to organize a warehouse, lumber yard manufacturing facility. So often, companies put bulk items like Pipes, Tubes, Aluminum sheets flake board, Steel Sheets etc in piles on the floor - leaving it to the warehouse personnel to constantly sort out unrelated heavy and bulky items. With cantilever racks, each type of product can be segregated by commodity and size.

## MURPHY MODULAR MEZZANINE FLOOR

**Transform unused spaces into a valuable asset.** **MURPHY** modular mezzanine floors create an ideal platform for optimum floor space and storage capacity, transforming unused spaces into a valuable asset. Relocating is no longer a problem. Provides a flexible flooring solution. It can be quickly extended or dismantled to be re-erected at a different location.

## MURPHY SLOTTED ANGLE RACKS

**MURPHY** Shelving Racks are of three types, ie. OPEN TYPE, SEMI OPEN TYPE AND CLOSED TYPE . Besides these three types rack, we are fabricating other different types of racks also such as HEAVY DUTY PALLET RACKS and Long Span Racks. Storage racks having different load bearing capacity as per demand of the client. RACKS having different load bearing capacity in the same rack. PIGEON HOLE RACKS (three sides covered racks having small compartments to store small components / parts ).

**MURPHY** slotted angle is a complete system, which has been designed and developed to solve all your storage and space problems in your congested godowns, stores, shops, factories, office and record rooms. It is most economical, strong and can be used for making all types of Storage Racks, Mezzanine Floor, Stair - case etc. In fact it can make any thing and every thing you can think of and its applications are countless. Imagination is the only limit to **MURPHY** versatility.

**MURPHY** slotted angle, panels and other accessories are fabricated out of best grade cold rolled steel and is pretreated with anti-corrosion solution and a coat of special zinc phosphate primer before painting in stove enameled dark grey colour.

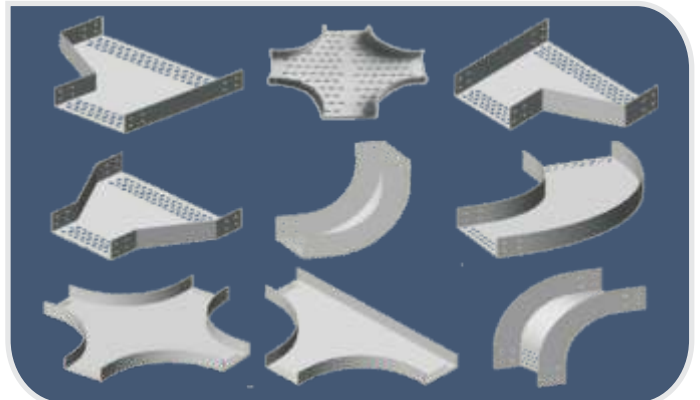

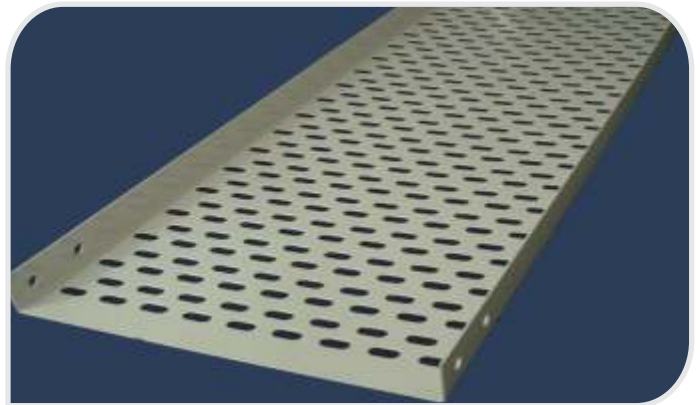

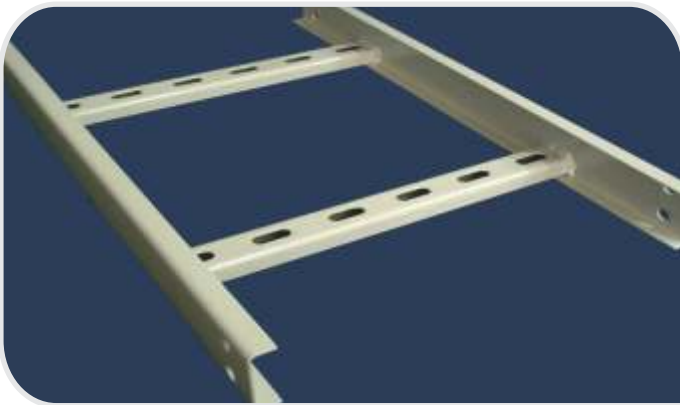

## MURPHY CABLE TRAYS

The focal point for those who value efficiency in cable laying. The ultimate solution to the problem of laying industrial cables, **MURPHY** cable trays can carry cables at any desired angle and can be fixed to any structure. The cables are safe from corrosion, seepage and destruction while the slot pattern allows complete air circulation. They are easily erected, save time, complete safety and versatility. **MURPHY** cable trays are manufactured in all gauges and sizes as per your requirement in painted, GI

sheets, hot-dip galvanized and Aluminum **MURPHY** manufacture Perforated Cable Tray, Ladder Type Tray, Race-Way, Ducting etc.

These are U shaped M.S. Channels , with center perforation and two side Collars. The Collars will be Perforated for Coupler Plate. It is fabricated from 1.6 mm or 2 mm thick sheet. The width of the center perforated portion, may vary from 50 mm to 1000 mm and the height of Collars may vary on specific demand. Its covers are fabricated. Covers are un-perforated channels. Generally fabricated as per requirement of gauge. The width of cover is 5 mm more than the width of the channel Collar of cover is generally 25 mm. Higher thickness is provided on demand. Length of Cover may be in one piece or in two pieces, if required.

# About MURPHY

Since 1976 have been pioneering new ideas for efficient storage and materials handling and has maintained its position as the leader through innovation, quality, honesty and after sales service. Name has become famous for their quality products and customer's satisfaction. Our shelving products are designed and manufactured to international quality standards. **MURPHY** will give you a storage system that maximizes your space utilization, eliminates misplaced inventory and stockouts and is capable of meeting your needs today and tomorrow.

## Quality Policy

**MURPHY** use all resources and systems to meet customer's expectation of quality, timely deliveries & product reliability & support. Each product is passed through stringent quality checks for defects, design and manufacturing conformity and optimum quality. The quality system provides both incoming and out going material specification conformity and workmanship for hassle free use in the field. We achieve the quality level by cross checking the quality at various stages of process and production.

## Infrastructure

**MURPHY** is backed by professional team of skilled and experienced staff. Our name stands for outstanding quality with competitive rates. There are numerous inspection

instruments that help in providing our customers with consistent quality at all times. Our R & D Department is always prepared for future needs, and an ongoing research in design and technology and keeps us one step ahead..

We are known for our quality as we serve products with exceptionally high standards. Shelving products are designed and manufactured to International Quality Standard.

## Pre-treatment and painting process

We undertake chemical treatment and remove oil and grease which may be on the Steel Sheets before painting. This is important as without chemical treatment there will not be good adherence of the paint to steel surface.

We are having in house set up of paint booth and oven, unlike others who send products to other factories for paint, which some time result to a poor finish. The chemical cleaning process includes de-greasing, de-rusting and phosphating processes. The material is then painted with high gloss synthetic Enamel Paint.

Finally all the material is Oven baked at 120 C to ensure good life and proper finish of the material for years together.

We are continuously touching the heights of success under the surveillance of team which work very hard for the betterment of organization, that's why we are able to give you the best services & products.
